Science Sensations Showcase March 17

Summary:

(March 11, 2004)-Chemistry students at the University of Minnesota, Morris, will perform sensational feats of science during the Science Sensations Showcase at 7:30 p.m. Wednesday, March 17, in the Science Auditorium at UMM. The showcase is a “dress rehearsal” for UMM students who will later present demonstrations at area elementary schools. The evening event is free and open to the public.

The chemistry road show, which will be performed for area third grade classes in Chokio, Herman Norcross, Cyrus, Benson, Appleton, West Central Area, Hancock, Clinton-Graceville-Beardsley, Morris Area and St. Mary’s schools, is designed to generate enthusiasm for science among elementary age students.

UMM students have traveled with Science Sensations for a number of years, much to the delight of area youngsters. This year's Science Sensations’ coordinator is Stephanie Vlaminck, a chemistry major at UMM.

Through personal and academic discovery, the University of Minnesota, Morris provides opportunities for students to grow intellectually, engage in community, experience environmental stewardship and celebrate diversity. A renewable and sustainable educational experience, Morris prepares graduates for careers, for advanced degrees, for lifelong learning, for work world flexibility in the future, and for global citizenship.
